AIR Technology

Water + Air = Natural Rain

Raindance  
powered by AIR

Normal shower

Raindance AIR

It is official - bigger is better! What is showering all about?

Firstly, it is about getting wet. The logical conclusion: the bigger the shower head, the greater the pleasure. Thus, the Raindance idea was born - expansive spray discs for expansive shower rain.

Raindance Air overhead showers are big and round. They are designed to accord with the natural human motion, because we're always moving, even in the shower.
