TOILETS

With an Englefield toilet suite you can be sure of having design excellence, comfort, durability, style and affordability. There's an Englefield toilet for every installation situation.

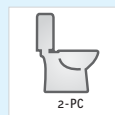

Information to consider

STYLES

ONE PIECE TOILETS

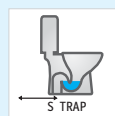

Clean lives all the way. Modern looking but neutral enough to fit in all bathroom settings. Easy to clean is an added bonus.

TWO PIECE TOILETS

A compact design compatible with many modern and traditional bathroom looks. The lines of the tank merge neatly with the bowl ensuring good looks and effortless cleaning. Check the models as it can be S or P Trap compatible.

WASTE OUTLETS

S-TRAP

Currently the preferred system when constructing new homes. For an S-Trap (through the floor), check the 'set out' measurement, which is the distance from the wall to the centre of the existing Waste Outlet.

QUIET-CLOSE™

Engineered to close slowly at the slightest touch, reducing noise and increased hygiene.

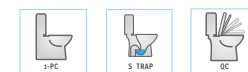

QUICK-RELEASE™

Enables swift and easy removal without tools for easy cleaning.

SPA BATHS

Englefield has a long standing reputation for producing high quality spa baths. All our spas are made from Duracryl® sanitary grade acrylic so you know that they will be hard-wearing, and will maintain their appearance. An Englefield spa bath is not only an investment in your home, but in your well-being.

TYPES & SHAPES

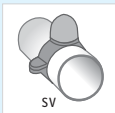

DROP IN

RECTANGULAR

CORNER

SV

DROP-IN SPA BATH

Deck-mounted or installed in corner or alcove.

RECTANGULAR SPA BATH

The straight forward solution for clean lines and easy installation.

The simplest spa bath shape, this design can be double ended for 2 bathers if you choose a midway plug design.

CORNER SPA BATH

A striking design feature and solution to awkward layout problems.

Add a feeling of space and fun for the entire family with a corner spa bath or simply get the reclining length you require in a smaller bathroom.

SPA BATH FEATURES

BODYGUARD® SAFETY VALVE

Designed to prevent bather injury.

Patented Bodyguard® protects you and your family by detecting blockages in the suction valve and automatically reduces suction allowing the blockage to be cleared.

WATER JET TECHNOLOGY

A series of jets are designed and strategically positioned around the spa bath to maximise the massaging effect to soothe muscle tensions and help you unwind. The water pressure can be adjusted in each jet to create the intensity that your body needs.

The greater the number of jets the greater the massaging action. When targeted on tense and sore muscles they deliver a deep tissue massage to provide effective relief.
