## Claudio Silvestrin

collezione Le Giare

Claudio Silvestrin è nato nel 1954 e ha studiato a Milano con A. G. Fronzoni e all'Architectural Association a Londra. La sua integrità, la chiarezza delle idee, la inventiva e la cura del dettaglio si rispecchiano nella sua architettura che è austera ma non estrema, contemporanea eppure senza tempo, rassicurante ma non ascetica, forte ma non angosciante, elegante ma non pretenziosa, semplice ma non anonima. Lo studio londinese di Claudio Silvestrin Architects è stato fondato nel 1989 e nel 2006 ha aperto uno studio anche a Milano.

*Born in 1954, Claudio Silvestrin studied under A. G. Fronzoni in Milan and at the Architectural Association in London. His integrity, clarity of mind, inventiveness and concern for details is reflected in his architecture: austere but not extreme, contemporary yet timeless, calming but not ascetic, strong but not intimidating, elegant but not ostentatious, simple but not soulless. Claudio Silvestrin Architects was established in 1989 with offices in London, and since 2006 in Milan also.*

“Mi sono spesso chiesto perché, entrando in bagno, percepiamo sempre una ‘dissociazione’ tra la coppia vaso-bidet e il lavabo. Ho quindi immaginato i tre elementi ‘Le Giare’ come, metaforicamente parlando, tre gemelli accostati tra loro in armonia da una geometria chiara, leggibile ed elegante. Un’unica geometria che abbraccia tre funzioni e che nasce dalla forma, percepita e riconosciuta come forma assoluta, simbolo di vita e di perfezione: quella dell’uovo”.

Claudio Silvestrin

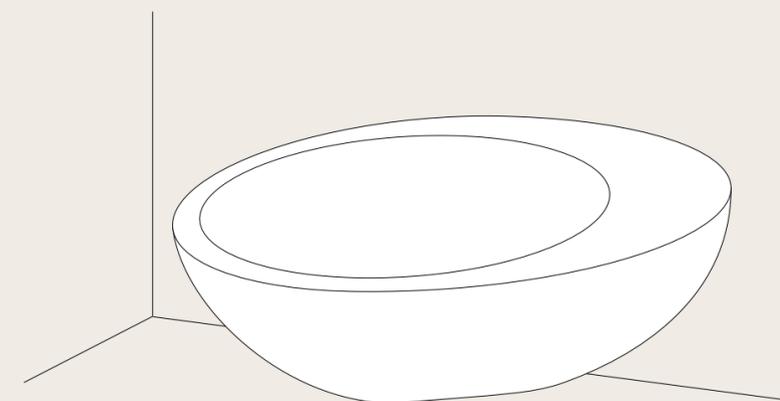

*“I often asked myself why I get this feeling of disconnection between the WC, bidet and wash basin when I enter a bathroom. Then I’ve imagined those three elements of “Le Giare” as, metaphorically speaking, a set of triplets drawn together in harmony by a clear, readable and elegant geometry.*

*A shape that could encompass three functions, a shape that arises from the form; a geometry worldwide perceived and recognized as absolute, a symbol of life and perfection: the shape of an egg.”*

**I sanitari.** Sono caratterizzati da linee sinuose, disegnano perfette forme circolari che si inseriscono nei contorni esterni ovali, dando forma ad una vera e propria scultura ceramica dalla geometria chiara. La collezione comprende due tipologie di sanitari, sospesi e a terra, con i bidet interpretati nelle due versioni normale e reverso, e un orinatoio.

*Sanitary wares. Their curving lines create perfect circular forms, fitting into external oval edges and creating ceramic sculptures with powerful geometric forms. The collection includes two types of sanitary fixtures, suspended and floor-mounted, with the bidets in two versions, regular and reverse-shaped, and a urinal.*
