Paolo D'Arrigo, classe 1967, formazione multidisciplinare che spazia dalla sociologia al design. Al profilo di designer affianca le attività di direzione artistica, di progettazione di spazi espositivi, insegnamento e associazionismo. Un percorso esplorativo completo, circolare che dall'oggetto porta all'uomo e dall'uomo all'oggetto. Osservatore attento della realtà e dei mutamenti che interessano il mondo del progetto, ha ideato e organizzato numerosi eventi culturali incentrati sull'evoluzione del design e del gusto. L'approccio materico, la continua ricerca dell'innovazione tecnica e funzionale e l'interesse rivolto ai temi della sostenibilità caratterizzano il suo percorso progettuale.

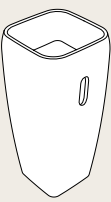

Paolo D'Arrigo, born in 1967, with a multidisciplinary education ranging from sociology to design. Beyond his activity as a designer he is also entrusted with the activities of art direction, exhibition design, education and community work. An exploring and complete career, a cycle which goes from the object to the man and from the man to the object. Observing attentiously the reality and the transformations which affect the domain of design, he has conceived and organized numerous cultural events centred around the evolution of design and taste. His design career is characterized by a material approach, by the continuous research of technical and functional innovation and by his interest focussed on topics of sustainability.
