

■ GEBERIT

Clearly invisible.

Freedom to create your ideal bathroom

Know-how
from
Switzerland

Let us inspire you.

Since 1874, Geberit has been the European market leader and global provider of sanitary technology. With our proven technology and experience gained from more than 60 million cisterns installed, let us inspire you with new possibilities and provide you the freedom to create the bathroom of your dreams.

Invisible technology. Geberit concealed cistern

You want an ideal bathroom – it should be practical, easy to clean and spacious, even if space is limited. With Geberit products, there are always solutions that can help you create your ideal bathroom. With Geberit concealed cisterns, all unsightly connections are kept out of sight, providing a clean finish to your bathroom. The installation system can bear up to 400kg and is stable. Having a wall-hung WC and concealed cistern, opens up the space in your bathroom while the trend-setting actuator plates adds a touch of modern design to your bathroom.

With a Geberit concealed cistern, only a flush plate is visible - two buttons that release either a large or small quantity of water. The focus here is on reliable functionality, but Geberit also understands design is of utmost importance. A wide range of design solutions offering different surfaces and shapes; from pneumatic to sensor, top to front-facing – our Geberit award-winning actuator plates provides endless possibilities.

Geberit Monolith for Washbasin

Functionality with style describes Geberit Monolith for Washbasin. Combining all the functions and the entire sanitary technology of a washbasin in a single unit, the Geberit Monolith for Washbasin sets stylistic accents in the bathroom while ensuring functionality. The front glass cladding is made of high quality tempered glass and is available in black, white and umber. Additional towel rails and push-to-open drawers can be installed on either sides of the module.

Drawer

You can opt to integrate the drawers into either one or both sides of the Geberit Monolith sanitary module for washbasins. This gives you extra storage space for your bath products in an attractive unit that fits right into the bathroom décor.

Towel rail

The Geberit Monolith sanitary module for washbasin comes standard equipped with a track that can be fitted with matching towel rail on either side of the module. Available in 2 different lengths.

Experience the
feeling of freshness.
With Geberit AquaClean.

Geberit AquaClean series

Water is an integral part of daily personal hygiene. It cleans, refreshes and provides a feeling of well-being. With Geberit AquaClean series, the state-of-the-art shower toilets come with in-built bidet functions, enhancing personal hygiene in a gentle and natural way. From the easily installable WC enhancement solution, AquaClean 4000, to the complete solution AquaClean Sela and AquaClean 8000plus, there is a perfect model for every home and lifestyle.

Geberit AquaClean Sela

Sleek and intelligent

Designed by famous architect and designer, Matteo Thun, the Geberit AquaClean Sela fits perfectly in any bathroom environment with its sleek and simple contours. The intelligent shower function technology, power supply lines and water pipes are integrated into the ceramic, making them invisible. The water spray is gentle and airy, ensuring maximum cleanliness and minimum water consumption. The Geberit AquaClean Sela is the reflection of modern standards of hygiene, design and sustainability.

1 A gentle, airy water spray wash as you clean with an intensity that is comfortable for you – choose from five different spray pressure levels.

2 As with all models, the shower nozzle is rinsed with clean water before and after you use the toilet.

3 The intuitive remote control makes the shower function really easy to switch on and adjust.

4 Alternatively, use the clearly laid-out control panel, concealed elegantly beneath the lid.

Geberit AquaClean 8000plus

The deluxe pampering programme

For a whole new level of luxury in the bathroom, the Geberit AquaClean 8000plus combines the function of a toilet with additional pampering functions that can be adjusted to suit personal preferences.

Beauty in full flow.
Let the water flow
and show it where to go.

Geberit floor-even shower drains

Geberit shower drains remove the last obstacle on the path to a perfectly designed floor surface. You gain total freedom in your dream bathroom. The inconspicuous, elegant shower drain is located in the wall.

Geberit shower element

Perfectly positioned

Water flows in through the wall, the floor retains its uninterrupted tiling and the proven Geberit technology ensures smooth drainage behind the wall. Equipped with a clever sealing system, the foil connection in the shower element system prevents cracks in the joints and plates, ensuring the Geberit shower element stays leakproof for generations.

A hair trap is located behind a cover plate that is easy to remove for uncomplicated, fast cleaning. The cover plate can also be customised using tiles to the desired design.

Benefits at a glance

Modern design

The cover can be matched to the desired tile pattern.

Easy to use

The wall cover can be removed with a simple hand wheel.

Easy to clean

The hair trap can be removed and washed out.
