# Designer Collections for Your Bathroom

Visionary thinking – to create values that last. Conserving what's valuable – while developing ideas for the future. At Axor, we shape the future of the bathroom by thinking beyond the individual products.

We are in a constant creative dialogue with product designers, interior designers and architects. We promote creativity and make space for the development of visionary collections and innovative concepts where function is brought into balance with the need for soothing comfort and personal fulfilment – both now and in the future.

*Philippe Grohe,  
Head of Axor brand*

# The Design

Behind our innovative bathroom collections are some of the world's most successful creative minds. They are visionary thinkers and pioneers in the fields of product design, interior design and architecture.

Their combined skills form the creative foundation for the concept of the bathroom as a living space. The bathroom has long outgrown its purely functional character and has become a space for personal retreat. This fundamental change in values is reflected not only in the bathroom interior but also in the architecture of the room. During the design process, the interaction between water, object, space and human being is continuously analysed, revised and refined. At the end of this process emerge the ideal concept and a triumph of emotive design.

The result: award-winning collections for the bathroom and breathtaking design concepts – as unique as the people for whom they are created.

# The Company

Quality is the key to success. Drawing on over 100 years of experience at Hansgrohe and more than 3 decades of intensive dialogue with the world's best designers and architects, we have been able to create bathroom collections of the utmost quality.

Hardly any other brand is capable of matching the product quality of Axor. Backed by Hansgrohe's manufacturing expertise and strength in innovation, Axor is a perfect union of design and technology. We create products that meet the highest standards – both aesthetically and functionally.

Thanks to our innovative technologies and procedures, our manufacturing process is both environmentally sound and resource-efficient. In this way, we make a lasting contribution to improving the quality of life while ensuring sustainability for future generations.

# The World

Whether it be a private retreat or a luxurious spa, an offshore yacht or a First Class lounge, a high-end hotel or an office building: the design and quality of the Axor collections appeal to planners and bathroom professionals worldwide. Axor stands for exquisite design innovations, variety and versatility.

Our comprehensive collections are as diverse as our customers' tastes and allow the realisation of any style or design in the bathroom. Always unique and personal – always a perfect, harmonious match. Our collections are found wherever design quality and respect for water are key values.

In the coming pages we illustrate how the Axor collections accentuate the style of international projects. Perhaps you'll find the inspiration for a new bathroom vision of your own?

**The Hilton, Manchester.** Above the rooftops of Manchester. At 169 metres, the Beetham Tower in Manchester is one of the highest buildings in England. Its most distinctive features include the striking glass facade and the impressive overhang at the 23rd floor. The first 23 floors of the Beetham Tower house the Hilton Manchester Hotel. The interior of the 284 rooms and suites is characterised by pure lines and subtle design. The precious dark woods and the gentle visual accents from back-lit glass and marble also feature in the bathrooms. With its focus on the essential, the Axor Starck collection perfectly matches the Manchester Hilton's vision of pure and discreet elegance.

**Hilton Manchester Deansgate Hotel**/Great Britain  
**Architekten:** Jestico + Whiles, London  
**Kollektion:** Axor Starck

**The Beach House, Manafaru, Maldives.** Relax, revive, replenish. The Beach House at Manafaru is among the most exclusive luxury resorts on the Maldivian Islands. The 68 villas and suites are surrounded by white coral sand, turquoise blue water and lush tropical vegetation. The residences with their exquisite interiors melt naturally into the characteristic Indian Ocean scenery. The Beach House is a charming symbiosis of the traditional island style of building and the ultimate in comfort and architectural purity. The resort creates space for relaxation and revival through its sense of openness and simple elegance. With its clear, minimalist and modern design, the Axor Starck collection brilliantly accentuates this approach.

**The Beach House,** Manafaru Island/Maldives  
**Architekt:** Mohamed Shafeeq, Maldives  
**Kollektion:** Axor Starck

**Asia Resort, Linsberg.** Natural harmony. Since 2008, amidst the idyllic landscape of Lower Austria, top-class European design and Far Eastern harmony have been meeting in style. The Asia Resort Linsberg near the Danube metropolis of Vienna promises wellness, tranquility and pleasure at the highest level. The design of this exclusive resort focuses on the principles of Feng Shui philosophy. Because water is one of the basic Feng Shui elements, the spacious bathrooms form the conceptual centre and highlight of the suites. With its harmonious proportions inspired by nature, the Axor Massaud collection ensures that everything is in perfect balance at the Asia Resort Linsberg.

**Linsberg Asia Spa Therme Hotel, Bad Erlach/Austria**  
**Innenarchitektin:** Cornelia Markus-Diedenhofen, Reutlingen  
**Kollektion:** Axor Massaud

**Sunseeker, Poole.** Custom-made luxury. The 37M Tridek Yacht is an example par excellence of the fine art of exclusive yacht building. The 37 meter long motor yacht was manufactured by Sunseeker, the iconic British ship-builder based in Poole. This high-end luxury yacht comfortably accommodates 17 people and leaves no desires unfulfilled. What is most distinctive about the Sunseekers is customisation: clients are allowed the maximum possible freedom to choose the interior and the performance features of their yacht. No two Sunseekers are alike. Personal taste is the deciding factor. This emphasis on personal style is accentuated by the luxurious interior of the Axor-equipped bathrooms. Axor Citterio, with its unique synthesis of design, technology and quality, is just one example of an ideal collection for the exclusive Sunseeker yachts.

**Sunseeker 37 Meter Yacht,** Poole/UK  
**Bauherr:** Sunseeker International Limited  
**Kollektion:** Axor Citterio

and Axor bathroom design.

# The Collections

Axor<sup>®</sup> Starck

Louder and louder. More and more colour.  
Ever faster. No wonder there is a longing in our hectic times for tranquillity and simplicity, and for ideas that allow us to draw new strength. Ideas like Axor Starck. Axor Starck is a collection of bathroom fittings, so slender in its form, so clear in its function, so simple in its effect. Modern, because it is uncompromisingly minimalistic; there are no disruptive elements, no unnecessary decoration. Just as a well draws from the deep, we can draw from Axor Starck and replenish ourselves with forms that offer us tranquillity. Forms which will outlive our quickly changing times.

# Axor<sup>®</sup> Starck

# Axor<sup>®</sup> Starck Classic

designed by Philippe Starck

In Mathematics, the letter X represents an unknown variable. In mixer design it represents the beginning of a new era: Axor Starck X. Sculptural, but with uncompromisingly straight lines is how the fitting presents itself. Water gushes out of it in a lavish flood, enabling you to experience the ritual meaning of this element. New dimensions are also opened by the shower system Waterwall – the perfect combination of minimal use of forms and maximum shower comfort. Axor Starck X is a collection that offers more – more water, more design, and more quality.

Axor<sup>®</sup> Starck ShowerCollection

The principle: 12 x 12 cm. The possibilities: practically unlimited. The result: unparalleled design freedom! The modular Axor Starck ShowerCollection transforms the shower into a tailor-made spa. Whether fittings, shower heads, ledges, speakers or light: the modules can be arranged in line with personal requirements and the architectural concept. All elements are distinguished by their minimalist linear contours based on a 12 x 12 cm square. Thanks to innovative solutions, perfect and individual arrangements can be realised against the wall. The Axor Starck ShowerCollection therefore gives rise to elegant wellness worlds in the bathroom. For the ultimate in personality.

Axor<sup>®</sup> Citterio

What actually is wealth? And luxury? Answers to these questions can be not only material, but also philosophical. One answer is provided by Axor Citterio, a collection of bathroom fittings which transforms the bathroom into a place of cleansing and tranquillity, where washing becomes a ritual and where water becomes a source of life. Axor Citterio allows you to experience the wealth of water: clear in form, rich in detail, abundant in possibilities – luxury at the second glance. What then is wealth? Perhaps simply to start the day with Axor Citterio.

Axor<sup>®</sup> Urquiola

Our private living space is a mirror of our personality. A charming fusion of styles and objects, of memories and emotions. Axor Urquiola allows us the space to tell our own story and express our personality. Whether it be mixers or wash basins, a bath tub or a heated partition: Axor Urquiola stands for sensual harmony and is characterised by an innovative fusion of form and function. Every element has its own distinctive, charming qualities and blends into our personal style mix to create a warm and welcoming space. In this way, Axor Urquiola maximises our opportunity to create a unique and personalised bathroom. With an invigorating freedom that awakens our senses – every day anew.

Axor<sup>®</sup> Massaud

In the bathroom we leave everyday life behind us. We enjoy precious, very personal moments. These are some of the few occasions we are in touch with ourselves – and at the same time so closely connected to one of the most important elements: water, source of all life ... Inspired by nature, Jean-Marie Massaud created a fascinating bathroom collection: Axor Massaud. Here, through ingeniously concealed functionality, the gently curved water reflects the natural movement of a waterfall. With instinctive lightness, Massaud achieves mutuality of nature and technology, organic and geometrical shapes – human being, water, object and space.

3-hole basin mixer  
#18013000\*

\*This fitting features a surge spray which underlines the natural aspect of water as a vital element for life. As a surge spray involves a spray to which no water is added, we recommend using the Axor Massaud or extra-deep wash basins to avoid splashwater.

TURE OF TIME

Axor<sup>®</sup> Citterio M

M is for Modernity. M is for Metropolis. M is for Milan. The famous international designer and architect Antonio Citterio presents his latest work: Axor Citterio M – an entire bathroom collection, inspired by modern city life. The contours are distinctively slim-line, while the overall impression of the collection is elegant – less of a tribute to the spirit of the times and more of a homage to Italian design. This is exactly why Axor Citterio M is so easily integrated in many different bathroom interiors and lifestyles. Almost incidentally, Axor Citterio M represents the high art of timeless modern design.

# Axor® Citterio M

designed by Antonio Citterio with Toan Nguyen

## Axor® Citterio M Basin

Single lever basin mixer

Axor<sup>®</sup> Uno<sup>2</sup>

The continuation of a success story: In the language of form, unmistakably Axor Uno, but being slimmer still, more geometric and very minimalist. Axor Uno<sup>2</sup> is a classic example of versatility. It provides a welcome alternative for contemporary bathroom design, at home wherever design, architecture and individuality are an absolute must. Glamorous or discrete, purist or extravagant, Bauhaus or post modernism: Axor Uno<sup>2</sup> will always fit the bill – enhancing the bathroom with amazing new perspectives.

Axor<sup>®</sup> Steel<sup>®</sup>

The word speaks for itself: Stainless Steel.  
No other material is so durable, so hygienic,  
so environmentally friendly and so easy to clean.  
Axor Steel, the collection of fittings made from  
Original Stainless Steel relies not only on its inner  
values, but also captivates through its forms. Only  
two elements were necessary for that: the circle  
and the right angle. Pure geometry and a classic  
material – the result is an authentic and unique  
collection for today, tomorrow and the day after  
tomorrow.

Axor<sup>®</sup> Terrano<sup>®</sup>

The longing for a sense of security and quality of life finds expression in the Country House Style. Axor Terrano allows you to bring it into your own bathroom. With a design that is as original as it is timeless, Axor Terrano can be interpreted in diverse ways – completely modern or rather traditional. In whatever way, Axor Terrano blends perfectly into the urban ambiance.

Axor<sup>®</sup> Carlton<sup>®</sup>

Nostalgia means longing – for times, places, moments that perhaps we ourselves may have only heard about – like the Roaring Twenties, era of the chic Grand Hotels. Axor Carlton, the classic mixer collection, has from the beginning dedicated itself to this era of style. Rich in variety and meticulous to the smallest detail, all these beautiful pieces allow you to reminisce and live out your fantasies. Trends come and go – but Axor Carlton will survive and remain: nostalgic, but classy.

Axor<sup>®</sup> Montreux

Time to reflect: on history, true values and the art of living. Authentically designed in the style of the Belle Époque, the Axor Montreux bathroom collection revives this exciting era between monarchy and modernity, romantic spas and the industrial revolution. Mixing styles is one of the latest trends in architecture and ambience. Classical mixes with modern, baroque with futuristic. The clear geometry offers Axor Montreux a vast playground in which to realise the most diverse bathroom solutions.

## Kitchen

Twin-handle kitchen mixer  
**#16802, -000, -820**

Twin-handle kitchen mixer  
**#16803, -000, -820**

Chrome  
**(-000)**

Brushed Nickel  
**(-820)**

Polished Nickel  
**(-830)**

The brushed nickel and polished nickel surfaces are created with PVD technology, which makes them extremely resistant to friction and scratches.

Axor<sup>®</sup> Kitchen mixers

You can eat purely to nourish your body, or for enjoyment. This is exactly the philosophy upon which Axor kitchen fittings are based. As the objects most frequently used in the kitchen, they need to be practical. But at the same time, they are more than mere water dispensers. Distinctive not only in terms of quality and function but also thanks to their unusual design. The different design collections are as individual as the people for whom they are made.

The Axor range is a classic example for perfectly matching design collections, blending into the most diverse lifestyles and bathroom settings. But what if you still have a special wish? In this case, Axor Manufaktur will provide you with a solution. This is where Axor products are modified according to your individual ideas, by giving them special surface finishes, extending or shortening the mixers and engraving your initials. The craftsmanship and passion for detail of Axor Manufaktur helps you to make your bathroom even more personal.

# Axor<sup>®</sup> Manufaktur

*Too short? Too long? We make it to suit: If possible, we will also modify the length of your fittings.*

*Here, your Axor fittings get special surface finishes, even your door handles if you wish – for a completely custom-made bathroom.*

*Highly individual, in the Axor Manufaktur you can even have your personal initials engraved into the fittings.*
